

It's Time to Jumpstart Your Career with the New York State Department of Transportation

Service & Repair Mechanic (Motor Equipment)

Service & Repair Mechanic (Motor Equipment) positions exist throughout New York State. The DOT is looking for qualified candidates to work in our 10 main shops and over 70 field locations throughout the State. Our main shops are large with 10-20 mechanics and a staffed parts room.

Tasks and Duties

- Diagnose and repair faulty vehicles and equipment.
- Overhaul, adjust and repair:
 - gasoline and diesel engines,
 - clutches, transmissions and differentials;
 - ignition, wiring, lighting, fuel, cooling, braking and complex hydraulic systems;
 - steering, wheel and suspension mechanisms; and
 - body, cab and frame components.
- Overhaul compressors, pumps (fuel, water, air and hydraulic), spreaders, small engines, mowers and other equipment, such as track vehicles, loaders, platform lifts, hydraulic excavators, etc.
- Diagnose and repair electronic engine control systems, anti-lock brake systems, and air conditioning.
- Conduct NYS Motor Vehicle Inspections.
- May be required to perform welding, cutting and repair.
- May be required to make road calls, test drive equipment, complete reports, use parts catalogs, and perform other related duties.
- Data entry into the Department's Equipment Management software is required.

**Department of
Transportation**

Salary

- Salary for a new appointee would begin with at \$46,146 (as of 4/22).
- Appointees in Mid-Hudson and downstate areas receive location pay differentials.
- Increased salary rates have been approved for various counties. Please inquire with the Administrative Services Director in the location in which you are applying.
- Promotion opportunities to Maintenance Supervisor 1 (Motor Equipment), SG-14 (\$51,711 as of 4/22) are available periodically.

Qualifications to Apply

You do not need to take a Civil Service examination to apply. Before submitting an application, you must have:

- Four years of experience as an automotive or diesel mechanic responsible for the diagnosis of faulty vehicle and/or equipment operation and the performance of mechanical repairs covering several aspects of automotive and/or diesel systems. On your application you must specify types of repair work performed and the kinds of vehicles on which you performed this work; or
- An Associate's Degree or higher in automotive or diesel repair technology (examples of qualifying degree programs include, but are not limited to: Agricultural Power Machinery, Agricultural Equipment Technology, Heavy Equipment Truck and Diesel Technician).

* Graduation from a technical or vocational program or from a one-year post-high school certificate program may be substituted for a maximum of two years experience.
